

MEDICAL INSURANCE POLICY

1. Policy

It is mandatory for every international student at Hanson Language School (hereinafter called 'HLS') to purchase medical insurance upon arrival in Canada. This insurance is essential to ensure students have access to necessary healthcare services during their stay.

2. National Health Insurance Program

Canada's national health insurance program is designed to ensure that all residents (permanent and temporary) have reasonable access to medically necessary hospital and physician services, on a prepaid basis.

3. Purchasing Medical Insurance

Students who do not have medical insurance can purchase it directly at the school. Detailed information and application/renewal forms are available upon request in the Academic Department or with one of our International Student Recruitment Specialists

4. Health Insurance Card

As health service providers validate the health numbers of people they treat, **it is important to always carry your health insurance card.**
